

10-11 February 2015, London

DAY ONE – Tuesday 10 <sup>th</sup> February	
<b>8:00</b>	Registration and exhibition opens
<b>8:00</b>	Coffee with the host
<b>9:00</b>	<b>Host's welcome &amp; opening remarks</b> <i>Shane Richmond, Consultant and Journalist</i>
<b>9:10</b>	<b>HOT PODIUM: The evolution of the CISO role</b> Join 4 top-level CISOs as they share their views on what their role should encompass, and how that fits in with both strategic development of information security and the overall company hierarchy.  <i>Robert Morgan, CISO, BNP Paribas UK, UK</i> <i>Gianluca D'Antonio, CISO, Grupo FCC and President, ISMS Forum, Spain</i> <i>Dr. Peter Fonash, CTO, US Department of Homeland Security, USA</i> <i>Fal Ghanca, CISO, Welspun Group, India and CISO of the Year 2014 finalist</i>
<b>9:55</b>	<b>KEYNOTE: What are we protecting?</b> In business where information sharing and privacy is both standard and crucial, it's important to understand exactly where the value is for the end-user. Rather than trying to ring-fence all information and brace for the inevitable, identify the end-user's key factor for business continuity and concentrate on protecting what is truly important to their business.
<b>10:20</b>	<i>Refreshment Break</i>

Track 1: Testing the Internal Risk MODERATOR: <i>Professor Tim Watson, Director, Cyber Security Centre, WMG, University of Warwick, UK</i>		Track 2: BYOD Management MODERATOR: <i>Shane Richmond, Consultant and Journalist</i>	
10:50	<p><b>HOW TO: Conduct internally-focused spear phishing and whaling attacks</b></p> <p><i>This session will provide key take-aways that can be put into effect</i></p> <ul style="list-style-type: none"> <li>- Conducting zero-payload SP/W attacks and penetration tests to expose vulnerabilities</li> <li>- Using SP/W attacks as part of an employee education programme</li> </ul> <p><i>Razvan Tudor, Director of Risk Management Division, Volksbank, Romania</i></p>	10:50	<p><b>CASE STUDY: Device and platform abstraction for BYOD programme security</b></p> <ul style="list-style-type: none"> <li>- Can using VDI-type device abstraction solutions stop information leakage from unsecured devices whilst still allowing user access?</li> <li>- Implementing a multi-platform programme: what worked, what didn't and what should be avoided?</li> <li>- Developing BYOD workplace policies to monitor and defend unsecured devices</li> </ul> <p><i>Hadi Nahari, Chief Security Architect, Mobile &amp; Software Platforms, NVIDIA, USA</i></p>
11:15	<p><b>CASE STUDY: Using social engineering attack methods to reinforce a secure communications culture</b></p>	11:15	<p><b>CASE STUDY: What are the security ramifications of wearable technology? Entering the world of Bring Your Own Everything</b></p> <p><i>By a representative from Accellion</i></p>
11:40	<p><b>PANEL: Are internally-focused cyber attacks worth the risk?</b></p> <ul style="list-style-type: none"> <li>- Effectiveness vs. trust: finding the balance between risk management and a positive corporate culture</li> <li>- Steering clear of a Big Brother culture: what are 'reasonable steps' and where is the line?</li> </ul> <p><i>Avtar Sehmbi, Head of Information Security &amp; IT Risk Management, Centrica PLC, UK</i></p> <p><i>Pankaj Mistry, Head of IT Security, Department of Work &amp; Pensions, UK</i></p> <p><i>Rasheed Ahmad, CISO, Deutsche Bank, UK</i></p> <p><i>Luke Hebbes, Head of Trust, R&amp;D, Orange Labs, UK</i></p>	11:40	<p><b>PANEL: Information leak management tactics within a BYOD security programme</b></p> <ul style="list-style-type: none"> <li>- Maintaining a lifecycle for the corporate information governance policy: defence, response and resilience</li> <li>- Understanding the different approaches required for an internal breach versus a user/client breach</li> <li>- Achieving agility and creativity to catch and respond to information leaks</li> </ul> <p><i>Alex Constantinidis, Vice President Internal Audit, Credit Suisse, UK</i></p> <p><i>Paul Haywood, Chief Technology Risk Officer, GE Capital, UK</i></p> <p><i>Hadi Nahari, Chief Security Architect, Mobile &amp; Software Platforms, NVIDIA, USA</i></p>

12:25	<i>Networking Lunch</i>
13:25	<b>Wine Tasting Competition:</b> Taste a selection of reds, guess their relative values and gain the chance to win six bottles of your favourite!

Track 1: Building an Educated Security Culture MODERATOR: <i>Professor Tim Watson, Director, Cyber Security Centre, WMG, University of Warwick, UK</i>		Track 2: Risk Management with Partners & External Stakeholders MODERATOR: <i>Shane Richmond, Consultant and Journalist</i>	
13:50	<p><b>HOW TO: Mitigate the insider threat</b> <i>This session will provide key take-aways that can be put into effect</i></p> <ul style="list-style-type: none"> <li>- Recognising the psychopathology and behaviour of a potential employee threat</li> <li>- Understanding and countering the five common insider threat agents</li> <li>- Establishing a strategy for dealing with corporate embarrassment or brand damage via social media</li> <li>- Using HR to embed and enforce a culture of security</li> </ul> <p><i>Chris Rivinus, Head of IT Project Delivery, Tullow Oil, UK</i></p>	13:50	<p><b>CASE STUDY: Extending corporate security control measures to employee-owned and partner-owned IT</b></p> <ul style="list-style-type: none"> <li>- Putting flexible defences in place that are still able to handle APTs</li> <li>- Working with foreign devices and partnered IT departments</li> <li>- Exploring the ramifications of improperly configured machines behind the defensive perimeter</li> </ul> <p><i>Vlatka Toukalek, Head of IT Infrastructure &amp; Support Services, World Meteorological Organisation, Switzerland</i></p>
14:15	<p><b>PANEL: Creating a culture of confrontation</b></p> <ul style="list-style-type: none"> <li>- Overcoming social and cultural barriers to confronting suspicious behaviour in the workplace</li> <li>- What is 'suspicious behaviour' and when is intervention warranted?</li> <li>- Balancing shaming and risk-control with maintaining a functional environment</li> <li>- Is confrontation and shaming an effective method of risk management?</li> </ul> <p><i>Don Randall, CISO, Bank of England, UK</i> <i>Dr. Lynne Coventry, Director of PaCT Lab, University of Northumbria, UK</i> <i>Anton Karpov, CISO, Yandex, Russia</i></p>	14:15	<p><b>PANEL: Managing today's risks from third party data sharing and access</b></p> <ul style="list-style-type: none"> <li>- What do your partners need in order to deliver? What can't they have?</li> <li>- Is it realistic to subject all sizes of suppliers to same verification processes?</li> <li>- Implementing effective data classification controls beyond the perimeter</li> <li>- Overcoming the legal and regulatory restrictions of data sharing, particularly as regards global partnerships</li> <li>- Establishing and enforcing accountability for access to data and systems</li> </ul> <p><i>Matt Allen, Policy Director, British Bankers Association, UK</i> <i>Adrian Davis, Managing Director (EMEA), (ISC)2, UK</i> <i>Becky Pinkard, Director, Security Operations Centre, Pearson PLC, UK</i> <i>Andy Williams, Project Lead, Cyber Connect, UK Cyber Growth Partnership, UK</i></p>

<b>15:00</b>	<p><b>DEBATE: Who has the right to say what?</b> Where is the middle ground between independent employee identities and corporate reputation/brand protection?</p> <p>Join advocates for legal information sharing restrictions, corporate security requirements and freedom of speech as they thrash out a balance of power.</p> <p><i>Mark Watts, Partner, <b>Bristows</b>, UK</i> <i>Paul Simmonds, CEO, <b>Global Identity Foundation</b> &amp; former Global CISO, <b>AstraZeneca</b>, UK</i> <i>Duncan MacRae, Chief Editor, <b>TechWeek Europe</b>, UK</i></p>	<b>15:00</b> <p><b>PANEL: The pros and cons of outsourced SaaS versus in-house development</b></p> <ul style="list-style-type: none"> <li>- Identifying the value-add in the supply chain</li> <li>- Doing the resource math: internal development vs. immediate cost and delivery</li> <li>- Are instant returns worth the security risk? Determining the best short- and long-term strategies</li> </ul> <p><i>Dragan Pendic, Chief Security Architect, Global Information Security, <b>Diageo</b>, UK</i> <i>Dai Davis, Solicitor, <b>Percy Crow Davis &amp; Co.</b>, UK</i> <i>Yann L’Huillier, Group CIO, <b>Tradition</b>, UK</i> <i>Professor Paul Jeffreys, Director of IT Risk Management, <b>University of Oxford</b>, UK</i></p>
<b>15:45</b>	<i>Refreshment Break</i>	

<b>PLENARY SESSION</b>	
<b>16:10</b>	<p><b>Analyst Round-Up</b> Responding to issues and questions raised during the day. Submit your questions via Twitter or the Registration Desk.</p> <p><i>Adrian Davis, Managing Director (EMEA), <b>(ISC)2</b>, UK</i></p>
<b>16:25</b>	<p><b>KEYNOTE: Securing our future</b> Fixing the problems surrounding data, privacy, IoT and wearable technology, rather than playing catch-up when the bad guys hack it.</p> <p><i>Paul Simmonds, CEO, <b>Global Identity Foundation</b> &amp; former Global CISO, <b>AstraZeneca</b>, UK</i></p>
<b>16:55</b>	<p><b>Hosts’ end of day administrative remarks</b> <i>Professor Tim Watson, Director, Cyber Security Centre, <b>WMG, University of Warwick</b>, UK</i></p>
<b>17:00</b>	<p><i>Drinks Reception</i></p>

DAY TWO – Wednesday 11 <sup>th</sup> February	
8:00	Registration and exhibition opens
8:00	Coffee with the host
9:00	<b>Host's welcome &amp; opening remarks</b> <i>Professor Carsten Maple, Vice Chair, Council of Professors and Heads of Computing, UK</i>
9:10	<b>KEYNOTE: Hacks, breaches and other threats – how to effectively manage the cyber landscape</b>  <i>Steve Durbin, Managing Director, Information Security Forum, UK</i>
9:35	<b>KEYNOTE: Where in the world is the threat?</b> A brief look at the growth of cyber threats and activity across the globe: Russia, China, Middle East and USA. Does the country of origin affect the nature of the attack? Should it influence the style of response?
10:00	<i>Refreshment Break</i>

Track 1: The Risks & Rewards of Shadow IT Initiatives MODERATOR: <i>Professor Carsten Maple, Vice Chair, Council of Professors and Heads of Computing, UK</i>		Track 2: Regulatory Developments & Shortfalls MODERATOR: <i>Shane Richmond, Consultant and Journalist</i>	
10:30	<b>HOW TO: Control the growth of shadow IT initiatives</b> <i>This session will provide key take-aways that can be put into effect</i> <ul style="list-style-type: none"> <li>- Influencing users to make less risky decisions when selecting cloud applications and services</li> <li>- Combatting the ability to bypass, ignore and circumvent critical IT security controls via off-the-shelf SaaS products</li> <li>- Evolving enterprise security controls to adapt to shadow IT and mitigate its risks</li> <li>- Regaining control over shadow IT projects that threaten critical company data and processes</li> </ul>	10:30	<b>Examining the ramifications of the coming EU Network Information Security Directive</b> <ul style="list-style-type: none"> <li>- What changes are coming and how will this affect your business?</li> <li>- Understanding the implications on risk management across the supply chain</li> <li>- Forecasting the impact on the use of cloud services for regulated information</li> </ul> <i>Patrick Curry, Director, British Business Federation Authority &amp; CEO, MACCSA (Multinational Alliance for Collaborative Cyber Situational Awareness), UK</i>

<b>10:55</b>	<p><b>PANEL: When and how should shadow IT initiatives be controlled?</b></p> <ul style="list-style-type: none"> <li>- Do draconian security controls limit or proliferate shadow IT?</li> <li>- What is the pay-off of shadow IT projects in terms of innovation?</li> <li>- Balancing speed and productivity with secure operations</li> </ul> <p><i>Martin Whitworth, CISO, <b>Coventry Building Society</b>, UK</i>  <i>Dr. Ian McDonald, Director of IT, <b>SwiftKey</b>, UK</i>  <i>Bridget Kenyon, Head of Information Security, <b>University College London</b>, UK</i></p>	<b>10:55</b>	<p><b>PANEL: What do future information management regulations need to consider?</b></p> <ul style="list-style-type: none"> <li>- Can compliance keep pace with what businesses really need?</li> <li>- Creating open standards to improve interoperability</li> <li>- Moving from protection tick-boxes to leakage response guidelines</li> <li>- What are the barriers to developing forward-looking regulations?</li> </ul> <p><i>Dr. Simon Rice, Group Manager for Technology, <b>Information Commissioner's Office</b>, UK</i>  <i>Marion Rosenberg, Head of IT Security, IT Audit &amp; Compliance, <b>London School of Hygiene &amp; Tropical Medicine</b>, UK</i>  <i>Peter Nota, Global Information Security &amp; Compliance Director, <b>Premier Farnell</b>, UK</i></p>
--------------	--	--------------	---

<b>11:45 SET 1: Moving, Storing and Using Data – the Risks &amp; Solutions</b>		
<b>Roundtable 1</b> <i>Exhibition Area</i>	<b>Storing data securely across platforms and national boundaries</b>	<p><b>Workshop 1: The Data Breach Threat</b> <i>Room 1</i></p> <p>Reported data breaches are on the rise and data privacy regulations are intensifying globally. How can we better protect ourselves?</p> <p><i>Sebastien Roques, UK Sales &amp; Strategic Alliance Manager, <b>Absolute Software</b>, UK</i></p> 
<b>Roundtable 2</b> <i>Exhibition Area</i>	<b>Countering interception of mobile data</b>	
<b>Roundtable 3</b> <i>Exhibition Area</i>	<b>Handling customer misuse of data and the impact on your brand</b>	
<b>Roundtable 4</b> <i>Exhibition Area</i>	<b>Identifying high-risk data</b> <i>Hosted by Nuix</i>	

<b>11:45 SET 2: Social Media &amp; Identity Management</b>		
<b>Roundtable 1</b> <i>Exhibition Area</i>	<b>Offsetting employees' right of self-expression with the internet's ability to link actors, actions and affiliations</b>	<p><b>Workshop 2</b> <i>Room 2</i></p> 
<b>Roundtable 2</b> <i>Exhibition Area</i>	<b>Leveraging social identities for business enablement</b>	
<b>Roundtable 3</b> <i>Exhibition Area</i>	<b>Establishing a strategy for dealing with corporate embarrassment or brand damage via social media</b>	
<b>Roundtable 4</b> <i>Exhibition Area</i>	<b>Developing Identity as a Service</b>	

12:45	<b>Tech Creds:</b> Final flurry of Tech Cred card swapping. There will be prizes!
13:05	<i>Networking Lunch</i>

<b>Track 1: Everyone's a Risk Manager</b> <b>MODERATOR:</b> <i>Professor Carsten Maple, Vice Chair, Council of Professors and Heads of Computing, UK</i>		<b>Track 2: Incident Response &amp; Recovery</b> <b>MODERATOR:</b> <i>Shane Richmond, Consultant and Journalist</i>	
13:55	<b>HOW TO: Leave the silos</b> <i>This session will provide key take-aways that can be put into effect</i> <ul style="list-style-type: none"> <li>- Educating and investing colleagues across the company on risk management</li> <li>- Creating a workgroup-level cyber security advocate programme</li> <li>- Fully integrating security programmes across all departments in order to maximize effectiveness</li> </ul> <i>Mojtaba Akbari, CTO, SEPAM Group, Ireland</i>	13:55	<b>HOW TO: Minimize breach regularity</b> <i>This session will provide key take-aways that can be put into effect</i> <ul style="list-style-type: none"> <li>- Achieving optimum configuration management</li> <li>- Identifying prime targets and conducting criticality analysis</li> <li>- Educating partners about underlying architecture and operating systems in order to improve solutions development</li> <li>- Clarifying the transition from security event to security incident</li> </ul> <i>Gary Cheetham, Chief Information Security &amp; Data Protection Officer, nfu Mutual, UK</i>
14:20	<b>CASE STUDY: Making the case for board level support</b> <ul style="list-style-type: none"> <li>- Proving the ROI of information security processes</li> <li>- Communicating clearly via 'what-if' scenarios and test programmes</li> <li>- Measuring programme maturity and mapping KRIs</li> <li>- The buck stops there: bringing corporate security responsibility to their door</li> </ul> <i>Rowenna Fielding, Information Governance Manager, Alzheimer's Society, UK</i>	14:20	<b>HOW TO: Develop a response and recovery strategy</b> <i>This session will provide key take-aways that can be put into effect</i> <ul style="list-style-type: none"> <li>- Implementing regular penetration testing of critical systems to test incident response processes</li> <li>- Segmenting the network to contain breaches</li> <li>- Shutting down incidents as quickly as possible</li> <li>- Ensuring cross-department familiarity with contingency plans</li> </ul>

<p><b>14:45</b></p>	<p><b>DEBATE: Fear versus greed in the boardroom</b> Which is the stronger motivator? Do you scare your board with dire warnings, or promise to turn security from a cost-centre to a business enhancer?</p> <p>Join the debate and vote for the most successful strategy.</p> <p><i>Barry Coatesworth, Industry Advisor, UK</i> <i>Nick Nagle, Information Security Consultant, Channel 4, UK</i> <i>Matt Holland, Global CISO, Education First, UK</i></p>	<p><b>14:45</b></p> <p><b>PANEL: How much information should be revealed to the public after a breach?</b></p> <ul style="list-style-type: none"> <li>- What are you legally required to reveal?</li> <li>- Assessing the impact on immediate and future operations, and the damage to brand</li> <li>- Coordinating the public response promptly and clearly</li> <li>- How much is the public entitled to know, above and beyond the legal minimum? How much do they care?</li> </ul> <p><i>Ray Stanton, Global Head of Business Continuity, Security &amp; Governance Practice, BT, UK</i> <i>Slavka Eley, Head of Home-Host Coordination Unit, European Banking Authority, UK</i> <i>Troels Oerting, Head of European Cybercrime Centre, Europol, Netherlands</i> <i>Lee Miles, Deputy Head of National Cyber Crime Unit, National Crime Agency, UK</i></p>
<p><b>15:30</b></p>	<p><i>Refreshment Break</i></p>	

<b>PLENARY SESSION</b>	
<p><b>16:00</b></p>	<p><b>Roundtable Summary</b> Catch up on what was said at the other tables!</p>
<p><b>16:10</b></p>	<p><b>Analyst Round-Up</b> Responding to issues and questions raised during the day. Submit your questions via Twitter or the Registration Desk.</p> <p><i>Adrian Davis, Managing Director (EMEA), (ISC)2, UK</i></p>
<p><b>16:25</b></p>	<p><b>KEYNOTE: Preparing for next generation Web authentication and eID</b></p> <p><i>Wendy Seltzer, Director, Tor Project &amp; Policy Counsel, W3C, USA</i></p>
<p><b>16:55</b></p>	<p><b>Host's end of day administrative remarks</b> <i>Shane Richmond, Consultant and Journalist</i></p>
<p><b>17:00</b></p>	<p><i>Close of Conference</i></p>
